The blackout period is for first time and returning students. It lasts about 6 weeks from the beginning of the month that your course starts. (Example: Sept. students, mid Oct, Jan. students-mid Feb.) Once it is over you can register with J&D Benefits and Green Shield Canada (GSC). Submit any claims and/or resume direct billing with GSC.

You will have coverage for 12 months starting from the first day of the month your course starts. (Example: started Sept. 9, you have coverage Sept. 1-Aug 31 of the following year.) It is good all across Canada, as long as your provincial health care is up to date. Whether you are in school or not in school. If you are a returning student, you do not need to register again, if you have already in the previous year.

There are two separate registrations. GSC and J&D Benefits. You can register with GSC without having registered with J&D Benefits. Registering with J&D does not register you with GSC. If you have a problem registering, questions about your coverage or a claim, contact the SCSU or Green Shield.

How to register with J&D Benefits:

Website: www.jdbenefits.com

J&D Benefits is our new third party administrator. You will receive an email from them when the blackout period is over. You will register with them to add dependents, at a cost, to your coverage or assign a beneficiary for your Accidental Death/Dismemberment Benefit.

Your 'Certificate Number' is your 6-digit student number. 123456

The 'Client Number' is SSU- (No numbers, just SSU-)
